

MIKE SEIDL'S ASSET AGENATRADER
COACHING

With the AgenaTrader DowTheory AddOn, you own a highly professional tool that can massively support your trading success with the right application. For this, an in-depth induction into the functional possibilities is absolutely necessary, since it is not uncommon for initial application errors to lead to subsequent costs in trading.

In your personal coaching for AgenaTrader, in order to support your trading successes, you receive a goal-oriented, individual education as well as active support in the creation of your individual workspace.

Beforehand

- Preliminary conversation free of charge
- What are your goals?
- Where do you stand today?
- What is of particular importance to you?

During our collaboration

Software education:

- Detailed induction into the basic functions of the software
- Individual application of the elements in the DowTheory package
- Setting of important factors such as money management / position size
- Work flow optimization

Workspace design

- Creation of personal trading signals
- Individual preselection by means of adapted market screener
- Optimal signal display using individual signal scanner
- Workspace structuring according to your individual preferences incl. video recordings if necessary

Conclusion

- You receive your personal dossier
